

Year 11 Study and revision sessions

Dear parent/carer

After half term we will be entering the final 3 weeks of examinations. At this point the year 11 timetable is modified to maximise the time to support students in the remaining exams as we appreciate that some students may be travelling a significant distance to come in for lessons that have no examinations remaining.

The schedule below indicates revision sessions that students are expected to attend if they are studying that subject. For example all students are expected on site for science and maths sessions as all students do those subjects but where there is a revision session for an option subject it is only students following that option that are expected to be onsite.

Students are not required to be onsite unless they are attending an exam or scheduled revision session they are however welcome to come in throughout this remaining time and their teachers will still be in lessons to supervise students who want to use the time doing revision for other subjects. If students are on site and not at a scheduled revision session they should go to the lesson they would normally attend at that time.

Revision sessions appear in normal text, examinations are in large bold text
