Y11 May: Final Exam

Improve your Grade by these Enrichment Activities

- Vocab Express: www.vocabexpress.com

This website is the best way for pupils to revise key words and expressions as it is targeted as all the key expressions that pupils will need to know for the exam. They should work through the different topics and revisit difficult topic areas several times before their exam. All pupils have been provided with an individual login and password (**login: first 5 letters of their surname + 1st letter of their first name ; password: D.O.B. with 8 digits ; school ID : UKHTHA**). If they have any problem with their login on they should come and see Mr Germain.

- Revision Guides

This could be a useful addition to Vocab Express to get extra practice. There are many guides available, but our exam board is Edexcel so if you buy one make sure that it is appropriate for it. I would recommend the **CGP Revision Guides** which I find clear. They exist in both Foundation and Higher. A more complete revision guide exists for higher students that include all the necessary topics as well as useful practice for Reading and Listening.

- Other Websites: Lots of websites offer excellent revision materials, for example:

www.languagesonline.org.uk - Go to the section *Francais* for lots of vocabulary and grammar practice on different topics.

www.iamlearning.co.uk - Great reading practice on all the GCSE topics (normal school login and password)

www.bbc.co.uk/schools/gcsebitesize/ - Lots of exercises as well as exam tips

www.zut.org.uk - Good for topic and grammar revision (this website is free outside school hours)

- **Apps on phones:** Recently some great phone Apps have started appearing which can help revising key words and expressions. For example, the App "**Cramit**" available on Iphone and Android phones is a great revision tool. You can find more details about this App by visiting www.cramit.co.uk.

To challenge yourself you can also try these:

- **Read Challenging texts** on: <http://deliredelire.org/les-textes>

- **Watch fun Youtube Videos on the topic covered:**
